Work

Torinit Technologies / Design Lead

Jan 2022 - Present, Remote

I lead a team to adopt new and improved design processes, as well as to provide quality design solutions based on various projects' needs. I am responsible for planning, estimating and ensuring the design team achieve set goals within budget and timeline. I participate in design review to make sure the design solutions are all aligned with certain requirements and expectations. I continuously encourage and empower team members to own the design from discovery to end-result.

DDS Wireless / Product Designer

Oct 2020 - Jan 2022, Vancouver

I built and maintained design system, design solutions and prototypes for SAAS products on the Transit industry. I helped outline business problems, opportunities and solutions for various features. I conducted several user interviews and usability testings to validate design solutions for major features.

KIS Vietnam Creative Co. Ltd / Design Lead

Feb 2018 - Jun 2020, Vietnam

I took part in research and analysis to understand product specifications for SAAS products of various industries. I conducted several UX research methods to gather feedback and design feasible design solutions. As a design lead, I was in charge of the majority of the design estimates and making sure the team complete the function per request on time.

Mobile360.com / Product Designer

Feb 2016 - Jul 2017, Australia

I designed and helped launch a mobile app on native iOS for e-commerce businesses. I conducted user research and usability tests to collect insights and deliver and more usable and delightful experience.

Websdaily IT Services / UX/UI Designer

Apr 2012 - Jan 2016, Australia

I worked on several design systems for products across different industries. I participated in ideation sessions and produced workflows, wireframes and prototypes for specific product per request.
